4) Past Performance - Questionnaire_ DRAFT

OASIS Pool 3 Primes,

It has come to our attention that there are some universal challenges with working federal acquisitions with social media (GSA Interact, Google Platforms, etc.). As we've previously stated, we always want our OASIS Pool 3 Partners to have quick (if not immediate) access to information we publish about our acquisitions on our GSA Interact Page. The name and location of our GSA Interact Page is below:

Name of Interact Page: Software Engineering Directorate (SED) - Battlefield, Strategic and Virtual Systems Engineering Support Acquisitions

U.S. General Services Administration
4890 University Square Suite 3
Huntsville, AL
Atlanta, GA 35816

Location of Interact Page: <https://interact.gsa.gov/group/software-engineering-directorate-sed-battlefield-strategic-and-virtual-systems-engineering>

There was an important post made today by the GSA SED team which requires your review and feedback if you're a part of the defense base pursuing one of the SED acquisitions.

The preceding four (4) DRAFT Past Performance attachments of the solicitation(s) for Virtual, Strategic, and Battlefield acquisitions are provided for your review and comment. Any questions regarding this process should be emailed to AASD.SED@gsa.gov NLT COB October 7, 2016 to AASD.SED@gsa.gov.

Thank you for your prompt attention to the important matter.

U.S. General Services Administration
